

PROJECT DEVELOPMENT PHASE

GenAI Functional & Performance Testing

Date	01 October 2026
Team ID	SWTID-2026-9397
Project Name	Auto-Ticket Classification using Flow Designer
Maximum Marks	4 Marks

Functional and Performance Testing

The testing phase validates ticket creation, automatic keyword classification, and requester email acknowledgment within the ServiceNow environment.

Test ID	Scenario	Expected Result	Actual Result	Status
FT-01	Create School IT Ticket	Record created with Caller and Short Description.	Created records visible in list.	Pass
FT-02	Automatic Wi-Fi Classification	Category = Network, Subcategory = Wi-Fi.	Demonstrated ticket shows Network/Wi-Fi.	Pass
FT-03	Projector / Hardware	Projector request maps to Hardware / Projector.	Ticket list shows classified as Hardware.	Pass
FT-04	Email Acknowledgment	Acknowledgment email generated for Caller.	Email log & preview show acknowledgment.	Pass
PT-01	Response Time Measurement	Execution time is measured and recorded.	No timing measurement supplied.	Not Tested
PT-02	Concurrent API Load	External API remains responsive.	N/A; no external API used.	N/A
PT-03	File Upload Load	Multiple files process without failure.	N/A; file upload not in scope.	N/A

Functional & Performance Testing Validation Lifecycle

Figure 1: Functional and performance testing validation lifecycle.

Implementation Evidence - Classification Verification

Figure 2: Published Auto Classify School IT Tickets Flow Designer workflow.

The screenshot shows a "School IT Ticket" form in the servicenow interface. The form fields include: Number (7870000000), Category (System Administrator), Short description (All IT not working in library), Description, Category (Network), Subcategory (Wi-Fi), Assignee Group (System Administrator), and Assignee (System Administrator). The form has "Update" and "Cancel" buttons at the bottom.

Figure 3: School IT Ticket showing Category = Network and Subcategory = Wi-Fi.

Number	Assigned Group	Assigned To	Category	Subcategory	Description	Short description	Status	Subcategory
7870000000	System Administrator	System Administrator	System Administrator	System Administrator	System Administrator	System Administrator	Open	System Administrator
7870000001	System Administrator	System Administrator	System Administrator	System Administrator	System Administrator	System Administrator	Open	System Administrator
7870000002	System Administrator	System Administrator	System Administrator	System Administrator	System Administrator	System Administrator	Open	System Administrator
7870000003	System Administrator	System Administrator	System Administrator	System Administrator	System Administrator	System Administrator	Open	System Administrator
7870000004	System Administrator	System Administrator	System Administrator	System Administrator	System Administrator	System Administrator	Open	System Administrator
7870000005	System Administrator	System Administrator	System Administrator	System Administrator	System Administrator	System Administrator	Open	System Administrator
7870000006	System Administrator	System Administrator	System Administrator	System Administrator	System Administrator	System Administrator	Open	System Administrator
7870000007	System Administrator	System Administrator	System Administrator	System Administrator	System Administrator	System Administrator	Open	System Administrator
7870000008	System Administrator	System Administrator	System Administrator	System Administrator	System Administrator	System Administrator	Open	System Administrator
7870000009	System Administrator	System Administrator	System Administrator	System Administrator	System Administrator	System Administrator	Open	System Administrator
7870000010	System Administrator	System Administrator	System Administrator	System Administrator	System Administrator	System Administrator	Open	System Administrator

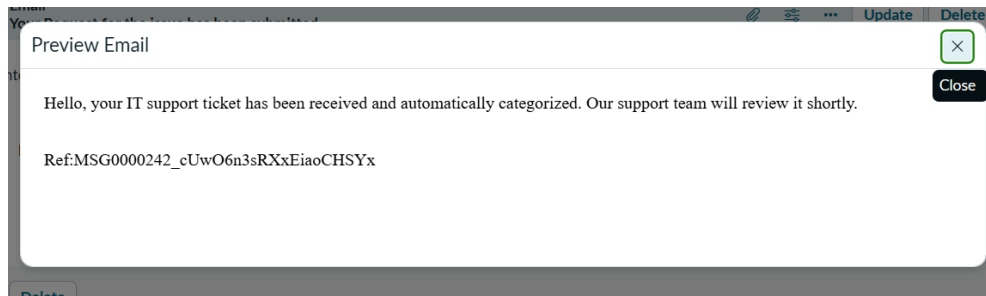

Figure 6: Preview of the acknowledgment email sent after ticket submission.

Testing Note

The functional tests marked Pass are supported by the submitted screenshots and project details. Performance cases requiring measured timing, concurrent-load results, or file-upload behaviour are left as Not Executed or N/A where the implemented project does not contain that feature or the required measurement evidence was not supplied.
