Problem - Solution Fit

Date	
Team ID	
Project Name	Auto-Ticket Classification using Flow Designer
Maximum Marks	2 Marks

Problem - Solution Fit Canvas

Target Customer & Problem	Solution & Validation
1. TARGET CUSTOMER Students reporting school IT issues, and helpdesk technicians responsible for reviewing, assigning, and resolving those requests.	2. CUSTOMER GOALS Student: report an IT issue quickly and reach the correct support process. Technician: classify and process incoming requests efficiently.
3. TRIGGERS Wi-Fi failure, projector problems, forgotten passwords, login issues, slow computers, or hanging systems trigger a support request.	4. EMOTIONS: BEFORE / AFTER Before: confusion about which category to choose, concern about submitting wrong info. After: confidence that request has been classified and acknowledged, with zero uncertainty.
5. AVAILABLE SOLUTIONS Manual helpdesk triage, asking a teacher or technician for help, describing problem directly to staff, and selecting categories manually.	6. CUSTOMER CONSTRAINTS Limited technical knowledge, uncertainty about categories, need for a quick submission process, and reliance on school IT access.
7. BEHAVIOUR Students notice an IT problem, open School IT Tickets, enter Caller and Short Description, and submit. Technicians review resulting records.	8. CHANNELS OF BEHAVIOUR Online: ServiceNow School IT Tickets interface and email. Offline: Classroom, library, laboratory or office where the issue is noticed.
9. PROBLEM ROOT CAUSE Helpdesk receives varied issue descriptions while students lack technical taxonomy training, creating manual classification delays.	10. YOUR SOLUTION Custom School IT Ticket table with Flow Designer automation. Keywords determine Category and Subcategory, followed by email acknowledgment.

Problem - Solution Fit Validation Flow

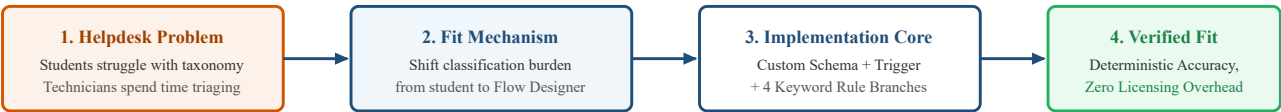

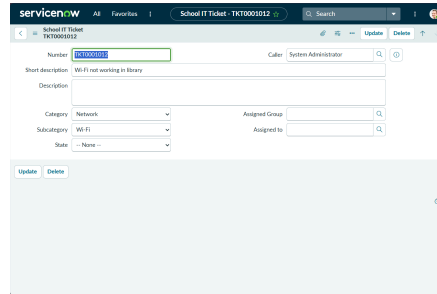

Figure 1: Problem-solution fit validation flow.

Problem - Solution Fit - Implementation Evidence

The following screenshots from the implemented ServiceNow project validate the fit between the identified user problem and the implemented technical automation.

The screenshot shows the ServiceNow interface for a 'School IT Ticket' (TKT0000012). The form includes fields for 'Number' (TKT0000012), 'Caller' (System Administrator), 'Short description' (WiFi not working in library), and 'Description'. There are also dropdown menus for 'Category' (Network), 'Subcategory' (WiFi), 'Assigned Group', and 'State'. The form has 'Update' and 'Delete' buttons at the bottom.

Problem - Solution Fit - Implementation Evidence (continued)

The screenshot shows the 'School IT Ticket' form in ServiceNow. The form is titled 'School IT Ticket - TKT000012'. It has a search bar at the top right. The form fields are as follows:

- Number:** TKT000012
- Short description:** I86 61 user working in library
- Category:** Network
- Subcategory:** I86 61
- State:** New
- Assigned Group:** System Administrator
- Assigned To:**

At the bottom of the form, there are 'Update' and 'Delete' buttons.

Figure 4: School IT Ticket showing the result of automatic classification.

The screenshot shows the 'School IT Tickets' list in ServiceNow. The list has a search bar at the top right. The list contains the following data:

Number	Assigned Group	Assigned To	Category	Description	Short description	State	Subcategory
TKT000012	System Administrator	System Administrator	Network	I86 61 user working in library	I86 61 user working in library	New	I86 61
TKT000013	System Administrator	System Administrator	Hardware	Printer not working in library	Printer not working in library	New	Printer
TKT000014	System Administrator	System Administrator	Network	I86 61 user working in library	I86 61 user working in library	New	I86 61

At the bottom of the list, there are 'Update' and 'Delete' buttons.

Figure 5: School IT Tickets list showing created requests.

The screenshot shows the 'Preview Email' dialog in ServiceNow. The dialog has a search bar at the top right. The email content is as follows:

Hello, your IT support ticket has been received and automatically categorized. Our support team will review it shortly.

Ref:MSG0000242_cUwO6n3sRXxEiaoCHSYx

At the bottom of the dialog, there are 'Update' and 'Delete' buttons.

Figure 6: Email acknowledgment preview generated for the requester.
