

Project Design Phase-II

Data Flow Diagram & User Stories

Date	
Team ID	
Project Name	Auto-Ticket Classification using Flow Designer
Maximum Marks	4 Marks

Data Flow Diagram

The DFD shows how ticket information moves from the student into the School IT Ticket record, how Flow Designer processes the short description, and how the resulting classification and notification support the helpdesk process.

Data Flow Diagram - Auto-Ticket Classification

Figure 1: Data flow for the automatic classification process.

User Stories

The user stories are written for the student, IT helpdesk technician, and administrator. Acceptance criteria describe the expected result of each story.

User Type	Functional Requirement (Epic)	User Story No.	User Story / Task	Acceptance Criteria	Priority	Release
Student	Ticket Submission	US-01	As a student, I can create a School IT Ticket by entering Caller and Short Description.	A ticket record is created with the submitted information.	High	Release-1
Student	Automatic Classification	US-02	As a student, I can submit a ticket without manually selecting the technical category.	The flow detects supported keywords and sets Category and Subcategory.	High	Release-1
Student	Email Notification	US-03	As a student, I receive an acknowledgment email after submitting a request.	An email is generated to the Caller email address.	High	Release-1
Helpdesk Technician	Ticket Processing	US-04	As a technician, I can view tickets together with their classification.	Category and Subcategory are available on the ticket.	High	Release-1
Administrator	Configuration	US-05	As an administrator, I can maintain ticket fields and dependent	The custom table supports the required fields and	Medium	Release-1

User Type	Functional Requirement (Epic)	User Story No.	User Story / Task	Acceptance Criteria	Priority	Release
			choices.	Category/Subcategory relationship.		
Administrator	Security and Change Tracking	US-06	As an administrator, I can control access and track customizations.	ACL/role controls exist and changes are captured in the Project Update Set.	High	Release-1
